# American History Lesson: Famous People Who Helped Shape American History

**DIRECTIONS:** Read each clue and choose a person from the list below that best matches each clue. Write each persons name on the blank line.  
Use an encyclopedia or dictionary if necessary.

HARRIET TUBMAN  
ALBERT EINSTEIN  
SUSAN B. ANTHONY

THOMAS JEFFERSON  
LOUISA MAY ALCOTT  
GEORGE WASHINGTON

NEIL ARMSTRONG  
MARTIN LUTHER KING, JR.  
THOMAS EDISON

1. I was the third President of the United States. I wrote The Declaration of Independence. My name is \_\_\_\_\_.
2. I am considered an electrical genius. I invented the phonograph. My name is \_\_\_\_\_.
3. I was a nurse during the Civil War. I am a famous female author. Two of my books are Little Women and Little Men. My name is \_\_\_\_\_.
4. I said "That's one small step for man, one giant leap for mankind". I was the first man to step foot on the moon. My name is \_\_\_\_\_.
5. I was born in Germany, but I became a citizen of the United States in 1940. I am best known for my Theory of Relativity. My name is \_\_\_\_\_.
6. I am a leader in the Civil Rights Movement. I was awarded the Nobel Peace Prize in 1964. My name is \_\_\_\_\_.
7. I have been called "The Father of our Country". I presided over the Constitutional Convention in 1787. My name is \_\_\_\_\_.
8. I worked hard to gain women the right to vote. In 1979 my likeness was put on a U.S. coin. My name is \_\_\_\_\_.
9. I am a female abolitionist leader. I worked on the Underground Railroad helping over three hundred slaves to freedom. My name is \_\_\_\_\_.

Know that sense of pride when hard work leads to rewards.

# I KNOW MY PHONE NUMBER & EMERGENCY 911!

It is important that children know their home telephone number(s) and Emergency 911 for safety reasons in situations such as a fire, an accident, or sudden illness involving a parent or caregiver. Children should not give out their telephone number to strangers – only to an authorized person, such as when calling 911; 911 is a number to use only in an extreme emergency.

Children as young as 3 years old have been able to save their parents in an emergency by knowing how to dial 911, and to know their phone number and address. It can be a life saving skill.

Make a 'My Telephone Number Banner' and display in bedroom or near phone area.

## Just For Parents: Teach Your Kids All About Money With An Allowance

The first lessons for kids about money come from their parents. You can start your kids off right by setting a good example in how you manage your own money. Next, take advantage of every opportunity to instill great money-smart habits. Here's how to teach your children about money:

### Allowances

**Under the age of 10:** Make allowances dependent on your child completing age-appropriate chores. This is the first lesson in work for pay. A five-year-old can be in charge of putting toys away. A 10-year-old can handle kitchen or garbage chores. Create a formal schedule for the allowance, such as every Saturday. It's your child's introduction to pay day.

**Age 10-15:** Shift some of a child's spending from your wallet to theirs. For example, rather than hand over \$10 or \$20 when your son is heading out to the movies, raise his allowance a bit and put him in charge of managing his entertainment money. Or if your kids are gaming enthusiasts, introduce cost sharing: set your spending limit on games, and make it clear they have to cover costs beyond that.

**Age 15-18:** Stretch the allowance payout period to two weeks, and then by the time they are 17, make one monthly

payment. Teach your teenagers about budgeting, and help them work out a plan for making their money last the entire month - good training for when they leave home for college.

### Savings

**Age 12 and younger:** Set an expectation that 50% of any money gifts your child receives will be put in a savings account. Make it clear that the money is 100% theirs, but encourage them to tuck it away for a savings goal. And that requires you sitting down and agreeing on a worthy savings goal, such as helping with future college costs.

**Age 13 and older:** Consider matching savings contributions for teens. For every dollar of allowance or job earnings they save, you will contribute 50 cents or a dollar. It's a great motivational tactic.

### Budgeting

**Age 12-15:** As your children enter their teens, consider giving them half of their allowance in cash and the other half as a spending limit on a debit card. This way they will learn how to budget their money even when they aren't paying cash. If they don't spend the debit card allowance,

together you can use Online Banking to transfer their unused allowance into their own savings account.

**Age 15-18:** Teach your older teenagers to monitor their bank accounts so they know how to limit banking fees. Show them how following a budget can help them spend within their means and avoid overdraft fees.

If your child wants more money to spend beyond their basic allowance, let them earn it. Babysitting, dog walking, and helping elderly neighbors with household chores are a few examples of appropriate jobs for young teens.

**PARENT TIP:**

# Lightning

## APRIL WEATHER LESSON:

### What is lightning?

Lightning is a bright flash of electricity produced by a thunderstorm. All thunderstorms produce lightning and are very dangerous. If you hear the sound of thunder, then you are in danger from lightning.

### What causes lightning?

Lightning is an electric current. Within a thundercloud way up in the sky, many small bits of ice (frozen raindrops) bump into each other as they move around in the air. All of those collisions create an electric charge. After a while, the whole cloud fills up with electrical charges. The positive charges or protons form at the top of the cloud and the negative charges or electrons form at the bottom of the cloud. Since opposites attract, that causes a positive charge to build up on the ground beneath the cloud. The ground's electrical charge concentrates around anything that sticks up, such as mountains, people, or single trees. The charge coming up from these points eventually connects with a charge reaching down from the clouds and - zap - lightning strikes!

### How hot is lightning?

Lightning is approximately 54,000 degrees Fahrenheit. That is six times hotter than the surface of the sun!

### What color is lightning?

Lightning seems to be clear or a white-yellow color, but it really depends on the background.

### Do You Know These Lightning Facts?

A lightning flash is no more than one inch wide. What we see as a flash of lightning may actually be four different strokes in exactly the same place, one right after another. That's why lightning appears to flicker.

## Spring's Newest Classes @ *Artisan Studio*

We always like to keep it fresh at Artisan, adding and changing things up a bit to keep our classes interesting and challenging for our students. The staff and I are committed to inspiring our students with new trends and subjects that we believe will be enjoyable for them. Spring is about renewal, a welcome change after a long winter. It's a great time for trying something new for kids that want to explore art, increase their skills, or just enjoy themselves at a non-stressful activity where they can meet new friends that share their interest.

There is often a misconception that kids need to be artistic, or 'talented' to enjoy art. That really is untrue; the only 'need to be' is open-minded and willing to try something new that may benefit them in many ways including academically. Art is so closely tied in to math, language and science; the staff and I always try to demonstrate the connections as often as possible so that they may have a deeper understanding of those relationships and importance.

Our youngest students enjoy our Young Artisans and KinderArt and classes which introduce them to working in many different mediums such as markers, pastels, watercolors and acrylic. These projects are on the messy side which for some children are not encouraged at home for that exact reason. At Artisan, we love the mess as the children immerse themselves in their work, enjoying the paint and pastel smudged on their hands and faces, a sign of their enjoyment (clothes are protected by smocks which are always provided). For kids ages 6 & older we have many choices of mediums and subjects in Basic Drawing, Drawing /Painting Kids, Famous Artists, Multi Cultural Arts, Papier Mache and more. Middle

and high school students can benefit from Fashion Design & Sewing, Teen Drawing & Painting, and our very talented and advanced teens participate in our Portfolio Prep class during their junior and senior years.

Our Newest Classes:

**Fashion Design & Illustration** - Ages 10-14, Saturdays 12-1:30 pm. This class is structured to give young fashionistas the experience of designing clothing and accessories, learning to illustrate fashion figures, fabric and more. If you child is thinking about a possible future in the fashion industry, this is the perfect introduction, instructed by Ms. Gail who has 30+ years of NYC experience in this field.

**Beyond Scrapbooks** - Adults, Wednesdays 10 am-12 p.m. If you enjoy crafts such as scrap-booking and collage, but also would love to try something in mixed-media that is more creative and not in 'book' form, this class is for you! Starting in mid April, we offer this unique class in which to further develop your creativity.

**Anime & Manga** - Ages 10-14, Saturdays 10-11:30 am. We've brought our Anime & Manga class back! Great class for students who want to increase their skills in cartooning and animation techniques in this very appealing and distinctive style which appeals to the 'tweens' age group. Returning in mid April, we look forward to sharing our passion and knowledge with our students.

Please visit our website or feel free to call us for further info!

# The Five Positions of Dance

**FIRST POSITION** - the balls of the feet are turned out completely. The heels touch each other and the feet face outward, trying to form a straight line.

**SECOND POSITION** - The balls of both feet are turned out completely, with the heels separated by the length of one foot. Similar to first position, but the feet are spread apart.

**THIRD POSITION** - One foot is in front of the other with the toe of the front foot touching the middle of the back foot.

**FOURTH POSITION** - The feet are placed the same as third position, but one step apart.

**FIFTH POSITION** - The feet are placed the same as third position, but one step apart.

## Summer Programs at Ranney School Offer Cost-Savings for Early Registrations

### *Exclusive discount on registrations received by April 5, 2013*

Summertime provides a wonderful opportunity for children to explore and pursue new interests through Ranney School's unique full-day balance of popular talent development classes, academic courses, sports camps and well as day and trip camps. Campers do not need to attend Ranney School during the school year - all are welcome! Our exceptional camp-accredited summer programs have been the favorite of hundreds of families in Monmouth, Ocean and Middlesex counties for more than 30 years, and the school continues to offer innovative programs for children age 3 to grade 12. This year, Ranney is excited to offer a new Counselor-in-Training (CIT) program for 14-year-olds. This full-day CIT program will include special camp and trip activities, CPR training, and emphasize the development of leadership skills with themed work projects where accountability, collaboration, compassion, respect, responsibility and sportsmanship are practiced in camp interactions with children, peers and adults. A Leadership Journal will also emphasize organization and time-management skills. At Ranney, children of all ages, from preschool to high school, are encouraged to explore a wide range of interests in an environment that is safe, stimulating and challenging.

Ranney School's Day Camp is both licensed by the state of New Jersey and accredited by the American Camp Association. Campers spend the day in assigned groups experiencing physical fitness challenges specialized programming in science, nature, arts and crafts, sports, music and drama, among other fun activities. Each group is organized by age for additional swim and sports instruction in our state-of-the-art facilities (including the upgraded Walling Aquatic Center and air-conditioned buildings), electives and weekly themed activities, including field and carnival days, climbing wall activities, talent shows, sports challenges and more. Structured schedules are designed to provide individualized instruction as well as optimum social interaction, and our low staff-camper ratio offers an exceptional experience.

With no price increase for 2013 and additional cost-cutting benefits for new and returning families to Ranney School Summer Programs, now is the best time to sign up for a summer of exceptional learning and fun.

Download the brochure at [www.ranneyschool.org/summerprograms](http://www.ranneyschool.org/summerprograms)

New families will enjoy best season pricing with a 10% discount on registrations received by April 5, 2013. Ranney is pleased to continue to offer all families a free week of Day and Trip Camp with camp registration. The school is also pleased to offer continuing families a 20% pricing discount on all

program registrations (with no increase in pricing from 2012). Please note that a free Trip Camp week will include a nominal cost for trip tickets. Families who combine morning academic courses with afternoon Day Camp will qualify for a free week half-day Day Camp incentive.

New to Ranney Summer Programs this year is a Counselor-in-Training Program for 14-year-olds, providing specialized training and leadership opportunities as well as camp experiences for this age group. It is being run in connection with our American Camp Association Accredited Day Camp for 3- to 13-year-olds, our Trip Camp for 10- to 13-year-olds and our Sports Camps (Basketball, Fencing, Soccer and Tennis for 8- to 13-year-olds; Boys' Lacrosse for 9- to 13-year-olds; Golf for 6- to 10-year-olds as well as 11- to 14-year-olds; and Swimming for 8- to 18-year-olds).

Additional STEM (science, technology, engineering and math) and talent development programming for students entering Grades 1-6 joins an already exceptional lineup of academic and talent development learning opportunities for students in Grades K-12. Ranney School is also offering specialized programming in the performing and visual arts, and increased Interactive Preschool Adventures for children ages 4 and 5. Learning over the summer has never been more personalized. The school invites families to become fully engaged in the learning and growing process this summer at Ranney School!

Families are encouraged to share this exciting program information with friends: new families will receive a special 10% discount on registrations received by April 5, 2013. The program application and required health forms can be accessed at [www.ranneyschool.org/summerprograms](http://www.ranneyschool.org/summerprograms). Continuing Family applications on our website reflect discounted pricing.

With such a strong turnout for the Summer Programs Reunion Day on March 9, the school is adding to the fun with an additional Summer Programs Reunion Day to take place April 20 from 1:00 - 3:00 p.m. in the Ranney School Gerhard Pavilion for Athletics. Whether families attended an earlier fun day or are joining us for the first time -- all are welcome! Participants should bring a bathing suit and a friend (the friend does not have to be a Ranney camper) to experience the "camp day fun." A Summer Programs Open House also takes place on campus April 20 from 10 a.m. - 12 p.m.

Families should explore the many options for their children this summer and register for our campus events online at <https://www.ranneyschool.org/summerprograms>.

## GREAT BEGINNINGS Last a Lifetime

With a whole family of mentors, advanced technology and many athletic and creative outlets, your children will be inspired to achieve their personal best at Ranney School.

### OPEN HOUSES

# April 1st is April Fool's Day!

It is an opportunity for playing jokes or tricks on your friends and family. The stranger and the more absurd they are, the better! The challenge is to carry out a trick that is believable. Tricks are most successful if played earlier in the day before a person is wise to what is going on. Jokes should be harmless and fun!

**REMEMBER:**

The jokes or tricks must not be dangerous or hurt anyone's feelings. Give your jokes and gags some thought before carrying them out.

List ten jokes, have fun!

What was the funniest joke someone pulled on you?

# WHAT IS THE LEGISLATURE?

The legislature is the branch of government that makes new laws and changes old ones. It is made up of 120 members in 40 districts in New Jersey. These men and women represent the views and concerns of the people in their part of the state.

## WHAT ARE HOUSES?

The New Jersey Legislature is divided into two bodies called Houses. The Houses of the New Jersey Legislature are the Senate and the General Assembly. There are 40 Senators and 80 General Assembly members, who are elected by the voters in their legislative districts. The members of the two Houses also are divided into political groups, called parties. The two major parties are Democrats and Republicans. The group having the largest number of members is called the majority party. The other group is the minority party.

## WHAT IS THE DIFFERENCE BETWEEN LEGISLATURE AND THE CONGRESS?

Our State Legislature makes laws only for New Jersey, just as Pennsylvania's Legislature makes laws only for its state. Congress meets in our nation's capital, Washington, D.C., and creates laws for all fifty states.

# The Summer Staycation

by: Jim Ned

Spring time and milder weather will be here soon. Between winter and super storm Sandy, spring cannot get here soon enough. As the Jersey shore struggles to get back on its' feet and be cleaned up, ready for visitors, it will not be the same for quite some time. Locals endured the cold weather, the pain and the frustration of dealing with claims representatives and adjusters. Compounding the matter was the fact of getting anemic results from insurance companies and government agencies. For many, warmer weather, coupled with the healing of time, is certainly welcomed by many communities. It is a winter we would all soon forget but will linger with all us who have been hit hardest by the fury of Mother Nature.

Unfortunately, we cannot control nature, despite what many may believe. The best we can do is be prepared and plan for the worst and hope and pray for the best. Many homeowners will still be cleaning up and rebuilding their homes this spring and summer. Families will find comfort and solace of just staying home and enjoy staying put, reaffirming their appreciation for their home and family after such a calamity. Families, relatives and friends will visit for barbecues, pool parties, and summer reunions.

For others, the idea of staying around the home during the warm weather season is not anything new. Since the banking crisis in 2008, the recession has lingered with us and the economy has lumbered, affecting New Jersey for a long time. Between a sustained high unemployment rate, underemployment, lower wages, high gas prices and continued uncertainty, many folks use their homes for summer "Staycations" in this new economy or new normal.

Homeowners would rather make their backyards their go-to destination this season. This trend will continue as long as gas prices and other commodities do not moderate. The idea of a "Staycation" is only exacerbated by the remnants and aftermath of super storm Sandy. The culmination of Sandy, the economy and high commodity prices make for a perfect storm, (no pun intended), for the appeal and practicality of staying put during vacation.

As businesses gear up for the spring and summer, you will see all types offers, incentives and sales being promoted for home improvement, restoration and landscaping. Many homeowners gain ideas and tips from these promotions and will think of ways of making their homes more appealing just to stay put. Beautifying

homes and backyards and reshaping the way we view our home may be a good thing in appreciating what we have, right in our backyards.

Residents up and down the New Jersey shore and inland will use their backyard as their oasis, a getaway or so called, go-to destination. Many home owners will rebuild, reshape and landscape their backyards. Beautiful landscaped designs, elegant ponds and waterfalls, cannot only be imagined but finally realized to many who thought it was unattainable or too expensive. Businesses are eager for your patronage and will deal.

A beautifully landscaped backyard oasis with a pond and waterfall is pleasing to the eye and makes for a great centerpiece and artistically compliments any elegant landscaped concept to the simplest of designs. It may be the prudent course to take in elevating the beauty of your home, increasing equity and saving money in the long run by not taking those expensive summer excursions. So, maybe it's not such a bad idea to take advantage of a "Staycation" and appreciate what we may have slightly taken for granted before that devastating experience from this past winter.

## Conjunction Lesson: And & But

### When to use them properly.

In the English Language, we use conjunctions like AND and BUT to connect two independent clauses in one sentence. One example of the use of a proper conjunction is in the sentence: "He hit the ball well, but he ran toward third base."

**DIRECTIONS:** Fill in the blank with either **And** or **But**.

1. I was not hungry, \_\_\_\_\_ I ate it anyway.

2. In the summer, it is hot \_\_\_\_\_ sunny.

3. The test was easy, \_\_\_\_\_ I failed

4. The girl looks friendly \_\_\_\_\_ kind.

5. I have a lot of homework, \_\_\_\_\_ I watched TV instead

6. My mom \_\_\_\_\_ dad went to the movies.

7. The soccer game was exciting \_\_\_\_\_ fun.

8. I had a lot of sleep last night, \_\_\_\_\_ I am still tired.

Answers: 1. but 2. and 3. but 4. and 5. but 6. and 7. and 8. but

# Host an AYA international student!

Welcome a student from Germany, China, Brazil, South Korea or another country into your home!

- ✓ Learn about another culture, its customs and language by hosting an international student for 5 or 10 months.
- ✓ Build a relationship with an AYA international student who will become like a son or daughter to you.
- ✓ Promote international understanding.

AYA students 15-18 years old attend high school and have their own medical insurance and spending money.

Families are asked to provide meals, a place to sleep and study, and a loving home environment for their student. Hosting an international student is an amazing experience!

# Rock On!

## Fizzy Fun Science Experiment

### YOU WILL NEED:

- Vinegar
- Small chunk of limestone rock
- Glass
- Several different rock types

### HERE'S HOW:

Pour a half cup of vinegar into a glass. Add a small chunk of limestone rock. (Find limestone outside using a rock identification book or buy a piece at a hobby shop). Watch closely. After a few minutes the rock will start to fizz. Now try the same test with other rocks and minerals. You may not see any bubbles.

### WHY?

Vinegar, an acid, dissolves bits of a material called calcium carbonate in the limestone. This releases carbon dioxide, a gas that rises to the surface as a stream of bubbles. Rocks that don't contain calcium carbonate won't fizz.

# Life Lesson 101 For Your Child: BUILDING LAUNDRY SKILLS

Dear Parent or Guardian,  
We are asking your son/daughter to work with you to do the family laundry one time. Here is the checklist of steps we want him/her to consider. Please check off the skills practiced and sign the paper. Thank you very much.

My name is \_\_\_\_\_ and I am practicing appropriate clothing and laundry care.

- ☐ 1. I sorted the laundry.
- ☐ 2. I sorted the laundry by color
- ☐ 3. I avoided damage and saved any valuables during laundry by removing any items in the clothing and emptying all pockets.
- ☐ 4. I tied all strings and sashes loosely to avoid tangling
- ☐ 5. I removed all belts, pins and items that are not washable
- ☐ 6. I measured correctly the proper detergent, fabric softener and bleach.
- ☐ 7. I did not overload the washer.
- ☐ 8. I shook the clothes out after wash and before entering the dryer.
- ☐ 9. I removed all clothes from dryer and folded them properly and put away neatly.

*Did You Know?  
Knowing and using  
proper clothing care  
practices results in  
positive life/resource  
management and  
money saved.*

Parents, never underestimate the simple and valuable lesson for your child with a little help and fun with laundry!
